

The Right Solution For YouSM

Vision Inspection

ZYNERGYSOLUTIONSSM
A ZELLER COMPANY

Vision Systems Built for the Real World

Guiding Customers into the 21st Century

Zynergy Solutions is a turnkey provider of integrated machine vision and motion solutions for high-speed, automated assembly applications. Zynergy has over 100-man years of experience integrating machine vision and motion solutions into Pharmaceutical, Consumer Products, Medical Device and general manufacturing applications. We have extensive experience working with end users, OEMs and machine builders. Since 1999 Zynergy Solutions has deployed hundreds of systems throughout the world that our customers count on daily to provide accurate, reliable and timely inspection and identification results.

Maximize Your ROI

No one takes more pride in building and installing integrated inspection systems and achieving a higher ROI for its customers than Zynergy Solutions. Our mission and our passion are to ensure our customers' long-term quality and productivity through the use of automated inspection solutions. We help customers achieve these goals through our unique combination of the right people, products, partners and processes. Zynergy hires only the best people with advanced technical expertise, provides next-generation technology, promises error-free precision and on-time delivery, and teams up with leaders in the fields of automation and controls to ensure our customers' success.

Label Placement/Label Skew Inspection

Typical Applications

- Date / Lot Code Verification
- Label Placement and Verification
- Cap Inspection
- Neck Band / Safety Seal Inspection
- Presence / Absence of Product or Component
- Product Identification
- Bar Code Reading (1D, Data Matrix, RSS)
- Optical Character Recognition (OCR)
- Flaw Detection / Cosmetic Inspection
- Vision Guided Motion (VGM)
- Product Gauging—Non-contact Measuring

Retrofitted Vision System for High-Speed

Pharmaceutical Medical Device Consumer Products

Capabilities

Engineered Solutions—Zynergy provides turnkey automated inspection systems including all mechanical, electrical, vision and software engineering required to deliver a complete inspection module.

A Formula for Success

When it comes to implementing automated inspection systems in a high-speed manufacturing environment, Zynergy Solutions is the proven vendor to partner with. We have demonstrated time and again our ability to make a positive impact on our customers' bottom line through the successful implementation of automated inspection and identification systems.

Our history of success and reputation in the marketplace is built on being committed to your success and exceeding our customers' expectations.

Technology—Zynergy partners with industry leading companies in the fields of machine vision, optics, lighting and software to provide "Best in Class" solutions to our customers.

Technical Expertise—Zynergy's project engineers are field tested, combining 100-man years of experience in machine vision and controls. Zynergy has the resources and technical

expertise to ensure continuous operation and optimal performance for your most demanding applications.

No Geographic Boundaries—Zynergy implements vision, motion and engineered solutions on a global scale. We have the resources and expertise to support your inspection requirements wherever they may be deployed.

Authorized Solutions Provider

Zynergy is an authorized solutions provider for Siemens Energy and Automation (Formerly RVSI Acuity) and a Certified Vision Integrator (CVI) for Cognex Corporation (DVT vision sensors). In addition, we provide robust LED lighting solutions from industry leading vendors such as Northeast Robotics (NER Lite), CCS America and Advanced Illumination.

Built to Last

Our inspection solutions are built and tested to exceed our customers' specifications and expectations.

Reliability

Zynergy inspection systems are run in mission critical operations on manufacturing lines 24 x 7 x 365 and are expected to perform in around-the-clock operations for decades to come.

Complete Project Management

Zynergy's complete project management and documentation capabilities mean we can assume turnkey responsibility for your inspection project. Zynergy has the horsepower, experience and expertise to manage your inspection project from conceptual design to production startup.
